

NATURALISTIC: OBSERVE AND RECORD WORKSHEET:

IF YOU SUCCEED A LOT MORE IN YOUR FIELD RESEARCH THAN YOU DO IN OTHER AREAS OF YOUR DEGREE THEN TRY AND APPROACH THEM IN THE SAME MANNER OF OBSERVE AND RECORD. THIS CAN BE DONE WHEN MAKING NOTES IN SEMINARS OR LECTURES, OR DURING YOUR READING AROUND YOUR COURSE. IF YOU HAVE A SPECIFIC FORMAT THAT WORKS FOR YOUR FIELD RESEARCH THAT YOU CONNECT WELL WITH, THEN YOU CAN REUSE THESE FORMATS ELSEWHERE. YOU MAY FIND IT EASIER FOR YOUR BRAIN TO ADAPT AND FORM ESSAYS IF YOU HAVE CONTINUITY IN HOW YOU COLLECT RESEARCH AND NOT SUCH A GAP BETWEEN DESK AND FIELD RESEARCH.

Feel free to use our example below:

Variable (e.g. theory):

How many times it is referred to in your reading:

It's relation to your question (e.g. supports or goes against):

Name of researcher/reference
